

# Life That's Free

**Skindred**

Big mountains  
Don't let them stand in ah your way  
Raise up King  
There's much more to life than what your problems weigh  
One right decision  
This is the difference from night to day  
Hold in position  
Fulfilling your dreams don't let them slip away

Ah fe push it harder  
Further and farther  
When we come down  
Come down like a ten tonne hammer  
You know we no stammer  
Ah first place we come  
For you know we don't stagger  
We rip it up again  
Rip it up again  
We come fe rip it up again  
Rip it up again again again again

I'm living a life that's free  
Without your constant complications  
I'm living a life that's free  
Deleting all your information  
You ain't got a hold on me  
I've found my source of inspiration  
I'm living I'm living I'm living  
Yes I'm living

Distractions  
Be focused be strong in every way  
Don't mention  
The things that you're going through will go away  
Stay on that mission  
Facing it all put your armour on each day  
Watch for collisions  
They no joke or they not play

Ah fe push it harder  
Further and farther  
When we come down  
Come down like a ten tonne hammer  
You know we no stammer  
Ah first place we come  
For you know we don't stagger  
We rip it up again

I'm living a life that's free
