

High Rate Extinction

Skinless

Reign over you another day
Take all I can
Slave to me there's no other way
Break all I can
Come and taste me
Stay and praise me
Take all I can while I burn you down
Weak man
Weak mind
You know you never will...be free
Come for you time after time and again

Crawl with me
Crawl with me

Give me what I need from you
Don't question why
On your knees in front of me
Weak man, weak mind
You know you never will be free
Come for you time after time and again
