

Don't Be Afraid

Skinny Living

We all need a little healing
From time to time
Tell me how you been feeling
And I'll tell ya mine

Cuz were only lost
Lost when were hiding from everyone that means it
So when you're tired
Tired of observing love and you want to feel it

Don't be afraid no more
Drop all the weight at my door
Anything that you tell me gets taken to the grave
Don't be afraid no more

You see we're not all that different
You and I
We make the most of something good
Passing by

Just look around
No one on earth knows what the hell they're doing
And they're just lying if they say they've never felt they're l
osing

So don't be afraid no more
Drop all the weight at my door
Anything that you tell me gets taken to the grave
Don't be afraid no more

You don't have to
Hide your tears
When you need me
I am here

Don't be afraid no more
Drop all the weight at my door
Anything that you tell me gets taken to the grave
Don't be afraid no more
