

Future shock incision
Crystal methane in my brain
Magnitude it's all the same
Speak for something funny how we
Let persist this silly game
Motivate the inner ear
Creeping getting crystal clear
Fear is fun only son
Question what is really real
Sun high, scarred up inside [?]
Black clouds still tears drip dry
Tell tale heats fly so high
Notions the backwards lie
Crystal methane in my brain
Magnitude it's all the same
Speak for something funny how we
Let persist this silly game
Motivate the inner ear
Creeping getting crystal clear
Fear is fun only son
Question what is really real
I'm lying here a morbid sight
Black clouds still tears drip dry
Tell tale hearts fly so high
Notion the backwards eye
Crystal methane in my brain
Magnitude it's all the same
Speak for something funny how we
Let persist this silly game
Motivate the inner ear
Creeping getting crystal clear
Fear is fun only son
Question what the fuck is real
Black clouds drip so dry
I DON'T UNDERSTAND WHY
Dripping mortar
Shorted shorted out -burst
Shorted shorted out
