

It's Kel P vibes

See I know that you know what you wanting
Still on the same page, but here we are
Chasing hope in the hope we stay honest
Sometimes life can kick you when you're down

But we got that, we got that faith (Yeah)
We got that, we got that stargaze in our eyes
We got that, we got that faith (Yeah)
We got that, we got that willingness to try
'Cause we got that, we got that faith

Here we go, here we go another problem
Didn't see this one coming, but here we are
Hold you close, hold me close at the bottom
Sometimes life can kick you when you're down

But we got that, we got that faith (Yeah)
We got that, we got that stargaze in our eyes
But we got that, we got that faith (Ooo yeah)
We got that, we got that willingness to try
'Cause we got that, we got that faith (Ah yeah, ooo yeah, it's faith)

What we got
We got that faith oh ya, ya, ya (Yeah, yeah)
We got that stargaze in our eyes (Fire in your soul I say)
We got that faith oh ya, ya, ya (Ooo yeah, yeah ooo)
We got that stardust in our eyes

But we got that, we got that faith
We got that, we got that stargaze in our eyes
We got that, we got that faith
We got that, we got that willingness to try
'Cause we got that, we got that faith

Keep moving and make your world
Making our own history
We dance to that one heart beat
We have our own stargaze
Keep moving and make your world
Making our own history
We dance to that one heart beat
We have our own stargaze

Hold you close, hold me close at the bottom
Sometimes life can kick you when you're down
'Cause we got that, we got that faith
