

Higher Place

Skip Marley

Oh, I'm lost I need a map
Though I slip get back on track
See the future, clear your path
'Cause we go forward, never back (Yeah)

Little weary boy, don't run up
Listen to the voice in your heart
I gotta fess up, no hesitation
It's a vibration, ready with my arms up

Take me to the higher place
I gotta run to a higher state
There's nowhere else to go, light the way
Pack it up and roll, I'm on my way
Take this to a higher place
I gotta run to a higher plain
There's nowhere else to go, light the way
Pack it up and roll, I'm on my way

How much longer can we play?
Man, they've run and gone astray
There won't be another day
If you don't decide to make a way

Little weary boy, don't run up
Listen to the voice in your heart
I gotta fess up, no hesitation
It's a vibration, ready with my arms up

Take me to the higher place
I gotta run to a higher state
There's nowhere else to go, light the way
Pack it up and roll, I'm on my way
Take this to a higher place
I gotta run to a higher plain
There's nowhere else to go, light the way
Pack it up and roll, I'm on my way
