Always been there for me  
Always take care of me  
Always my therapy  
Always repair for me  
Always transparency  
Always prepared for me  
My heart beats slower, it calms my storm

(Light Up) light up the world now  
(Fire) Burn up the bad vibes  
(High up) the higher that we go  
(Higher) we can go higher  
(Light Up) light up the world now  
(Fire) Burn up the bad vibes  
(High up) the higher that we go  
(Higher) we can go higher

Hold on, hold on we gonna get through this  
(I Know)  
Roll on  
Roll on we gonna medz through it  
(I know)  
Good for my wellness  
You make me stress less

Loving you  
Is the only thing that I want do  
Feeling blue  
You're the only drug that I wan do  
Tell me the truth  
Did you really mean  
Every word you said  
Or is it all, my head?

We light up  
We light up the place like  
Gbana  
Only you I desire  
Ready go through the fire  
Cus when  
You hold me o, hold me o  
You dissipate all of my worry o  
This kind love wey I need  
Boy you make me happy  
Amma hold on

(I know)  
Roll on  
Roll on we gonna medz through it  
(I know)  
Good for my wellness  
You make me stress less  
Good for my wellness  
You make me stress less

Type a thing dat raise da spirit up  
Type of thing dat man envision bout  
Free the mental  
Clean of digital  
You're the real gold dem keep digging for  
(Well)  
To find you is critical  
(Seh)  
Something like a miracle  
My heart beats slower, it calms my storm
