

No Love

Skip Marley

I take her bitter wit her sweet
Moon up to sun
I got what she need
Roll down the ends and make her feel like ah Queen
Strum of mi guits she said it feel like a dream
Cold cold the way that she be running like she afraid I'm gonna
tame her
Maybe it's just exercise I always see her later
I know she a real one I will never change her nature
She keeps coming back for all the lovin that I gave her

Now she say she want my love
Want my love, want my love
When I was so deep in love
You had no love, had no love

Born fi bun the belly out the beast
Nowhere to run, gotta search for my peace
She said skip you just wanna love me and leave
I said baby I just wanna love and repeat
Cruel world, this ain't the garden of Eden
Stay very vigilant of the grass every season
Mi nah switch up, mi nah bend, mi nah lean
It's a stick up, stick up
I'm a victim, victim once again

Now she say she want my love
Want my love, want my love
When I was so deep in love
You had no love, had no love

She love the naughty boy
Bad mon yardi boy
She wanna push my love away
She scared to roll with me
She scared to show me
She wonder why I cannot stay
She can't deny it when we catch a fire
When we touch it turn to a flame
She so controlling, love and pain
She play a dangerous game

She play a dangerous game

She play a dangerous game
