

Slow Down

Skip Marley

Slow down
Girl, let me love you

Darling, I care
I care for you
More than my own self
Darling, I'll share
I'll share with you
All goodness and wealth

Seh we can have just one night
Or we can one whole life
If we play it cool, yeah
We can have that one thing
Or we can have everything
If our hearts are true

Girl, slow down
Girl, let me love you
Darling, slow down
Let me get to know you

Baby, I've been fantasizing
Just looking in your eyes
You know I'm looking for more
And you're what I've been praying for

This kind of love don't come around like this
I'm not one to play around like this, it's so real
And I love how it feels

Love it when we slowly sway
I love it when we think the same thing

I love the way we move
The way we move

We can have every night, yeah
We can have every day
Ooh, I want you too
I need you

Darling, slow down
Let me love you
Slow down
Let me get to know you

I wanna see you tomorrow
Not just the thrill of today
Don't let our love just be borrowed, no
This is the choice that we take

Girl, slow down
Why don't ya, don't ya, don't ya
Let me love you
(I need you, you, you)
Darling, slow down

Let me get to know you

Hey, we can have just one night

Or we can one whole life

If we play it cool, yeah

Cool (So cool, oh)

We can have that one

(We can have that one thing)

Or we can have everything

If our hearts are true
