

## Dancing Alone

Skip The Use

Just hold my hand if you can  
And follow the rhythm  
And feel the vibes  
I keep the poison in my pocket  
Just nothing else but feeling great, oh

I keep my mind wide open  
To the world or anything else  
I'm feeling reckless, oh  
I'm full of happiness

Great is the sun when it hits me  
Dancing alone above the sea  
Stuck in my California dreaming  
Leave me alone and throw the key

I think about it from my bed  
Stars are dancing in my head

I'm swinging alone in my room like a fool  
My body expresses itself on the groove  
No Instagram, just life  
So what? So why? Yeah

Great is the sun when it hits me  
Dancing alone above the sea  
Stuck in my California dreaming  
Leave me alone and throw the key

Great is the sun when it hits me  
Dancing alone above the sea  
Stuck in my California dreaming  
Leave me alone and throw the key

Great is the sun when it hits me  
Dancing alone above the sea  
Stuck in my California dreaming  
Leave me alone and throw the key

Great is the sun when it hits me  
Stuck in my California dreaming
