

Down

Skip The Use

In the night
All the planets and stars, all
All the faces are dark
And every truth, every truth is a lie

Rip this skin of mine
Trade your tears for smiles

Get ready
Even if I'm down
Oh god, I'm alive
Come on, hey
Together we rise
For the worse and better

Cause you know from the sky
The strangers sound asleep
In the flickering coals
Am I a part of it?

Rip this skin of mine
Trade your tears for smiles

Get ready
Even if I'm down
Oh god, I'm alive
Come on, hey
Together we rise
For the worse and better

Get ready
Come on, hey

I gotta get ready
Even if I'm down
Oh god, I'm alive

Get ready
Even if I'm down
Oh god, I'm alive
Come on, hey
Together we rise
For the worse and better

Get ready
Even if I'm down
Oh god, I'm alive
Come on, hey
Together we rise
For the worse and better
