

Forever More

Skip The Use

I've opened my eyes
Five minutes before
Forever more
Oh I'm walking in the dark
With no one to follow
And no place to go

Oh, oh, yeah
We gotta live
We live to get free
We trust we could be
Oh, oh, yeah
We gotta live
We live to get free
We trust we could be

Stay for hours wondering what you're looking for
It's still not promising to give more and more
What if we die, then what do we stand for
We're walking in the dark with no one to follow
We got a new design and a new place to go
But nothing but love, forever more

Oh, oh, yeah
We gotta live
We live to get free
We trust we could be
Oh, oh, yeah
We gotta live
We live to get free
We trust we could be

'Cause we both know
What life is like let's die for what we stand for
'Cause we both know
What life is like let's die for what we stand for

Oh, oh, yeah
We gotta live
We live to get free
We trust we could be
Oh, oh, yeah
We gotta live
We live to get free
We trust we could be
