

## Lead Or Follow

**Skip The Use**

I've tried to call someone but everybody's gone  
I've tried to call someone but everybody's gone  
I've tried to call someone but everybody's gone  
I've tried to call someone but everybody's gone

I've tried to call someone but everybody's gone  
My heart was never broken, no, my heart was never broken

(Get away... you gotta get away...)

I gotta waste some time, all I wanna know  
Should I lead or follow, lead or follow?  
I gotta waste some time, all I wanna know  
Should I lead or follow, lead or follow?

Everybody's gone, I don't wanna sing alone  
Everybody's gone, no, I don't wanna sing alone

I would like a little medicine to forget the reality  
Darkness surrounds me, I'm leaving inside my sorrows  
I would like a little medicine to forget everything  
And realize that I just... wanna die!

(Get away from me...)

I gotta waste some time, all I wanna know  
Should I lead or follow, lead or follow?  
I gotta waste some time, all I wanna know  
Should I lead or follow, lead or follow?

It's the question of lead or follow  
'Cause I wanna know...  
The question of lead or follow  
'Cause I wanna know...  
The question of lead or follow...
