

My Generation

Skip The Use

I don't know who am I
I've thought about it before
And everything is ok
Life goes on x3

A day think will be different
I give you my commitment
Is not to be teenage bad day
It's my way x3

I'm talking to you lady
My generetion, my opposition

Cause I feel bad
And I feel so nasty
Into this world (into this world)
Cause I'm da voice of a generation
Into my world (Into my world)

Come as you've done it before
Who ho I want more

What will I do tommorow
World is turning behind the window
I can't live without you
What else a guy could do for you
I learnig in your eye
What is good, what is bad
Stars are lighting on my skin
Love is on

I'm talking to you lady
My generetion, my opposition

Cause I feel bad
And I feel so nasty
Into this world (into this world)
Cause I'm da voice of a generation
Into my world (Into my world)

Come as you've done it before

Say, what you wanna say to me
I wanna hear your voice
Be what you wanna be with me
I wanna see your choise
Come as you've done it before

Cause I feel bad
And I feel so nasty
Into this world (into this world)
Cause I'm da voice of a generation
Into my world (Into my world)

Come as you've done it before
Who ho I want more
