

## We Are Bastards

Skip The Use

We're not the men to follow  
No, we got nowhere to go  
You'll find us in the back row  
We're gonna hurt your radio  
I got my friends we're not right  
So if you wanna waste time  
You'll find us in the back row  
Last action zero

This song's got nothing to say  
But I'll sing it anyway  
More shit to top up your day  
An album to plug away  
We've been rocking for 15 years  
We are an honest mistake  
I make music with my friends  
Another shit song again  
Another shit song again
