Baby girl  
You drive me fuckin nuts  
I wanna hurl  
I hate your fucking guts  
Oh baby girl  
That vibe you got it sucks  
Get out my world  
Sweet baby girl  
Oh baby  
Hate you  
I do not want to  
Girl you drive me  
Fucking crazy  
But I still wanna flaunt you  
You're the one I never wanted  
But when you're here  
Girl I still want it  
Oh yeah  
I just wish I never met you

First off  
I wanna say  
That I don't fucking like you  
Everything I do  
Is just to spite you  
I wanna fight you  
I wanna vent  
But you tell me  
I have no right to  
So this time I'll make sure  
To make the right move  
I wanna throw you in the lake  
So you can meet the fishes  
I'm texting other bitches  
While I watch you do the dishes  
You won't ever be my Mrs  
Bring me joy you on my hit list  
But I still fucking love you girl  
Cuz I got me a sickness  
They say we're fucking toxic  
I'm addicted to the poison  
I'm hanging with the killers  
Tell my mom to let the boys in  
You wanna try me  
You make me anxious  
Got me itching like its ivy  
You're not my type  
I want myself a Kylie  
Your daddy fucking hates me  
He don't think of me too highly  
So just tell the old man  
To brush his teeth  
Then fucking bite me  
I bet he won't  
I'll take him fishing  
Throw him off the boat  
Now let's see if daddy's body

Likes to stay a float  
I bet it won't  
Sip slow while I sniff blow  
For all you know  
I'm hitting notes inside the studio  
You stupid hoe  
You cheated once  
I should of let you go  
But I'm a sucker for that pussy  
Yeah you keep it soaked

Baby girl  
You drive me fuckin nuts  
I wanna hurl  
I hate your fucking guts  
Oh baby girl  
That vibe you got it sucks  
Get out my world  
Sweet baby girl  
Oh baby  
Hate you  
I do not want to  
Girl you drive me  
Fucking crazy  
But I still wanna flaunt you  
You're the one I never wanted  
But when you're here  
Girl I still want it  
Oh yeah  
I just wish I never met you

I wish I never met your bitch ass  
I wish I never wasted time  
When I would sweat your bitch ass  
You're such a slut  
I wish the world could finally  
See your true colors  
Nobody likes you  
Not your momma  
Not your dad or your brother  
You under cover  
Tryna act like you be loyal as hell  
I bet you'd cheat at any moment  
For some likes and a belt  
You need some help  
Your just a toy  
Your ass belongs on a shelf  
Go fuck yourself  
Your body fake  
I hope your plastic ass melts  
Because the weathers getting warmer  
But my hearts getting colder  
You never wanted me for life  
You wanted me to walk over  
You wanted money that's a fact  
Go stick a dick in your ass  
That shit so fat  
It's fake as fuck  
I bet it's made out of glass

Your friends all hate me  
They think that I'm crazy  
They say I'm bad news

But they keep watching me daily  
I know they wanna fuck  
If they did  
They'd try and date me  
My bezel got em stuck  
Yeah they know my shit to wavy  
Bitch we way too crazy

Baby girl  
You drive me fuckin nuts  
I wanna hurl  
I hate your fucking guts  
Oh baby girl  
That vibe you got it sucks  
Get out my world  
Sweet baby girl  
Oh baby  
Hate you  
I do not want to  
Girl you drive me  
Fucking crazy  
But I still wanna flaunt you  
You're the one I never wanted  
But when you're here  
Girl I still want it  
Oh yeah  
I just wish I never met you
