

Creep Little Baby

sKitz Kraven

Hello children
Can Kraven teach ya something
Like how to creep
Like how to kill
Preserve the feet of someone
No no no
I'm talking murder
Not that Halloween stuff
Don't mind the dancing in the trunk
That's a ballerina
She used to talk a lot
So I removed her box
Her voice box silly goose
Not her effing crotch
I'm not a pervert
I'm just tortured by my thoughts
Yeah I never kill for profit
I just do it for the rush
What rush
A couple bodies
Not enough
I paint my house
I use the blood
That's left over
From all the guts
Don't mind that man
That lives alone
Inside that creepy mansion
That man is evil
He's macabre
No that ain't Charlie Manson
I'm way more sick
I'm way more twisted
Get your femur shifted
Remove your hips
Then take your ribs
And use them both as dishes
I'm very sorry for your loss
I heard your daughters missing
But she's alive
You hear her screaming
Shhhh
Stop and listen
It's been weeks
Since I walked
Out of my house
I sit alone
I'm wide awake
Got roaches all on my couch
I'm drapped in blood
I got more red on my head
Than Emma Stone
I'll shave you bald
Yeah just like me
Then slit your wrist with a comb
I done told you once before
About my very bad temper

She's a crazy little whore
So please don't ever try to tempt her

I'm a creep little baby
I like to pry
You can try to run
But you can not hide
If you dare to scream
I'll make sure you die
So be so kind
And get in my ride
When we get to my house
Don't put up a fight
Just pop this pill
And then take a bite
You won't like this part
So I'll slit those eyes
While your pretty limbs bathe
In formaldehyde

You can't tell me that you love me
That shit fucks me up
Once you do your mine forever
I can't get enough
I'm obsessive
I'm compulsive
Plus I crave the rush
From dismembering the sluts
Who went and stood me up
Just like you did baby
Don't start pleading out now
I haven't even cut you yet
No need to scream it and shout
I know your shoulder blades
Been bugging you
I'll dig it right out
I'll fix that right up in a jiff
I'm such a gentleman wow
Hush little baby
Don't you cry until the needles in
Your veins when I inject the fentanyl
To make you swim again
Take you to the clouds
But I can promise you won't land again
This hospitals a bitch
When it's your ex that got you landed in
I should of tried kill you
When I had the chance
But now I do
You broke my heart
So it's your heart I'll remove
My momma always said
Evan please don't play with your food
But I can't help it
Torture chamber
We have so much to do

I'm a creep little baby
I like to pry
You can try to run
But you can not hide
If you dare to scream
I'll make sure you die

So be so kind
And get in my ride
When we get to my house
Don't put up a fight
Just pop this pill
And then take a bite
You won't like this part
So I'll slit those eyes
While your pretty limbs bathe
In formaldehyde

I'm a creep little baby
I wanna see you die
I just wanna take a razor blade
And shove it in your eye
Watch the blood pour out
Drink it
Now you're really mine
Take whatever is that's left of you
And keep it as a shrine
Bitch die
