

Embarrassed

sKitz Kraven

People blowing up my timeline
What they saying got me
Feeling like I'm in the lime light
I'm just getting started
All these rappers see my headlights
Cruising at full speed
The more I move the more they parish
I got rappers so embarrassed

I make these rappers so embarrassed

I got rappers so embarrassed

I make these rappers so embarrassed

I'm just stackin up my carrots

I got rappers so embarrassed

People say I'm hella cocky
Walking around with my chin up
I make her suck my dick
Until the bitch about to spit up
I've moved a lot of muscle
Still ain't ever done a sit up
You asking if I wanna get high
Bitch I been up

My life so fuckin stressful
Ordinary I need 2 phones
From Madison to LA on the reg
I need 2 homes
My show tonight got cancelled
Told my plug I need 2 zones
These junkies know I got more rock
Then a tombstone

You say you got that fire
Boy I see you out of matches
I be in the studio
While you be sleepin on the mattress
Killing shows while making hits
This life I live be far from average
Your lil momma hit my line
She said my rhymes hit her like traffic

You say you've jumped through hurdles
For this life I'm doing back flips
I got me a model braud
While you be fucking with them ratchets
I'm looking right through these haters
Only focused on the cabbage
People say I'm always grindin
I just tell em it's a habit

People blowing up my timeline
What they saying got me

Feeling like I'm in the lime light
I'm just getting started
All these rappers see my headlights
Cruising at full speed
The more I move the more they parish
I got rappers so embarrassed

I make these rappers so embarrassed

I got rappers so embarrassed

I make these rappers so embarrassed

I'm just stackin up my carrots

I got rappers so embarrassed

Like Yo Gotti it go down in the DM
I walked in at twelve
But now it's close to 3 am
Pussy rappers they see me
But I can't see them

They wanna be him

I just wanna go and fuck the bitch
So then we fucked
Now she be sayin she in love with sKitz
That's just my luck
I go out back and spark a couple cigs
I thought I quit
But like I said this life be stressing
I'm stressing it

Welcome to mi casa
I'm spitting lava

So I call it Jabba
It's drapped in Prada
Run up on me homie that's a nadda

Catch me on the weekend

So I copped me a zip

I just started leanin
Don't ask me for a sip
