

## Foreign Places

sKitz Kraven

Sometimes I catch myself  
Staring at you  
While you watch tv  
You make perfect look  
So effortless babe  
Sometimes I wish we could both fall asleep  
Just to meet up in our dreams  
We could run away to  
Foreign places

I haven't felt this way  
In a wet while  
Got me craving for your love  
Like a step child  
That smile  
Make me wanna go in exile  
Only with you  
Without you I'm a reptile  
I blend with the most  
With you  
I just stand out  
Top of my game  
Tell the city bring the fans out  
Man down  
When you broke up with your ex  
Heard he hasn't been well since you left  
But you're mine now  
Lay you down  
Young Kraven bout to dine out  
Put my log in  
Baby promise you won't sign out  
Hittin it for hours  
Tell the ref you need a timeout  
Say you never had rich sex  
You bout to find out

Sometimes I catch myself  
Staring at you  
While you watch tv  
You make perfect look  
So effortless babe  
Sometimes I wish we could both fall asleep  
Just to meet up in our dreams  
We could run away to  
Foreign places

Yeah  
I'm just tryna be modest  
You're better than my past  
I'm just tryna be honest  
My music got you hooked  
Like I'm tryna be Phonics  
I'm only playing for the bucks  
Like I'm tryna be Giannis  
I see nobody else  
Not even a little  
You got that cake

I wanna piece  
I'm going right for the middle  
Wanna take you around the world  
And show you off on a swivel  
All I do is wanna travel  
I don't know how to dribble  
For real

I just need to know  
Are you down to fall in love with someone new  
Baby tell me you do  
Oh you do  
We can run away for the night  
Get drunk  
And do some things we won't forget  
Baby tell me you'd like that

Sometimes I catch myself  
Staring at you  
While you watch tv  
You make perfect look  
So effortless babe  
Sometimes I wish we could both fall asleep  
Just to meet up in our dreams  
We could run away to  
Foreign places
