

# Gone

sKitz Kraven

I've been underrated overhated  
Locked in a cage humiliated  
Lied to bad by the ones I loved  
Been hyped up then manipulated  
I've lacerated then prayed forgiveness  
Then did that shit right back to basics  
I sin real bad is an understatement  
I hurt what's her name but that's unrelated  
I'm on to greatness  
Heads on the pavement  
I sprayed my prey  
Yeah I'm not the tamest  
I'm lion hearted  
Your sheep minded  
Been said that before  
Keep rhyming  
Better perk up when I talk  
Or you'll be missing legs  
No walkin for you  
Christopher I thought you were to  
Follow all my words I told you  
Billy listened well  
But I think you need some more help  
So I must put you through the pain I felt  
So anger is what you'll be dealt  
I'll throw you down a wishing well  
Then wish you well  
Straight down to hell  
Then tell your mom  
I think he fell  
But little does she know  
I pushed you off  
And man that felt so good  
Call the cops  
Bitch I wish you would  
I was bullied  
So I slept in the woods  
Then once my bully entered in  
I had some fun  
He was a bad egg momma  
So he got scrambled  
She said clean up the mess  
I said it's handled  
Most these rappers don't say shit  
No they just ramble  
I feel like Rambo  
Boom boom boom  
When I fuck my damsel's  
I'm a just kill her if she cheat  
I ain't got no heart  
I've been rich since twenty three  
You gotta slow start  
Did this shit with only me  
You ain't have no part  
All my money now is clean  
Like it's Ozark  
This ain't a Myers beat

I'm a apply the pliers  
While I pry off your feet  
I don't accept defeat  
They all wanna feat  
So you cannot expect a fee  
It's very expensive  
I'm very attentive  
She very pretentious  
Marry in Venice  
My life is so hectic  
It's scary to mention  
Always suspended  
I grew up demented  
But that was expected  
Throw me a lesson  
I called for a blessing  
He answered tremendously  
Head with some Hennessy  
She evil inside  
Yeah she menacing  
Spare me the pleasantries  
No we ain't in love  
But she just pretend to be  
I'm off that  
I've been getting soft  
I was more hard  
When I was off crack  
Emotions numb  
From bodies  
Alcoholic drinks  
I toss back  
Collecting legaments  
Inside my cabinets  
Got my entire kitchen smelling so bad  
My minds in no mans  
Gone  
Someone help me out  
My mind is  
Gone  
Please have patience with me  
Cuz right now my mind is
