

Instructions

sKitz Kraven

You're the boss tonight
Anything you say to do we'll do
You tryna get lost in sight
I wanna make your eyes roll back in you
I ain't gonna start a fight
Cause what you say in here it goes
You're a boss ass bitch
You already know
I wanna lay your body down
Tell me what to do
I'll follow your instructions
I won't ever break your rules
I'm usually a bad boy
Tonight I'll be your saint
I wanna make you stutter
While you screaming my name

I'll follow your instructions
When you say go fast
I'll follow your instructions
When you say hold back
You telling me to go deeper
While I pull your hair
You telling me to slow it up
When you're just almost there
I'll follow your instructions
Until I hit your spot
I'll follow your instructions
Cause tonight you're the boss
I'll follow your instructions
Just tell me what to do
I'll follow your instructions
I always follow through

You be the boss
Just lead by example
Tease me a little
Just give me a sample
You be the damsel
Without distress
I'll be your janitor
You make the mess
I'll clean it right up
But after it's wet
You be the teacher
And I'll be your pet
I'll give you the workout
Just give me the sweat
Can somebody just tell your ex
Give it a rest
Cause right now
You screaming my name
Tonight you're a beast
I ain't trying to tame
I'm bringing out all your addictions
All of your fantasies
Blurring your vision

But I see your vanity
Feeling your body
But it's not enough
I wanna feel all of your potion erupt
I want you to think of this night
On every day
And you'll just hear me say

I'll follow your instructions
When you say go fast
I'll follow your instructions
When you say hold back
You telling me to go deeper
While I pull your hair
You telling me to slow it up
When you're just almost there
I'll follow your instructions
Until I hit your spot
I'll follow your instructions
Cause tonight you're the boss
I'll follow your instructions
Just tell me what to do
I'll follow your instructions
I always follow through
