

Yeah
I heard lil momma hit a couple licks
I told that bitch to pop her pussy
And just do a split
Lit
She taking dabs while I smoke a grit
If I don't give the bitch some dick
She gon throw a fit
Told the bitch to come back around
I got a hunnid for her
Told the bitch don't get it twisted
I got a hundred whores
House party
In a mansion
That got a hundred floors
I might rock me a VVS
With the Tom Ford
I don't know what you should do
But they all know I'm coming through
A couple bottles me and you
A couple models bring them too
I told lil momma
Keep it going
I'm a throw it
I'm spitting rhymes
Holding a bottle
I'm a poet

I tell her if she want it
She can get it for the low
All these white girls
They obsessive with the snow
I tell her if she need me in her life
Just let me know
And I'm a give it to her

If I'm out of line
Baby girl just let me know
She gon do this line
After she gon touch her toes
We don't have much time
Baby girl just let it go
And I'm a give it to her

Yeah
We been at it for a couple minutes
Break out a line
A couple times
Now she all in my business
Lifted
Up in my trunk
But I ain't into fitness
I'm headed to the top
So just make sure you stop to witness

Double cup full of that lean
Yeah I got a sickness

Made a living off my dream
I finesse the quickness
All these lights they all on me
You would think it's Christmas
I'm married to the white
But it's your wife that's still my mistress
Yeah

I just make a scene
When I'm spittin

Xany in the lean
When I'm sippin

I just make her scream
When my tips in

Ice over my tee
Call it Lipton

I tell her if she want it
She can get it for the low
All these white girls
They obsessive with the snow
I tell her if she need me in her life
Just let me know
And I'm a give it to her

If I'm out of line
Baby girl just let me know
She gon do this line
After she gon touch her toes
We don't have much time
Baby girl just let it go
And I'm a give it to ya

If I'm out of line
Baby girl just let me know
She gon do this line
After she gon touch her toes
We don't have much time
Baby girl just let it go
I heard you tryna get it
Baby girl just let me know
