

Lost & Found

sKitz Kraven

Snort a couple lines
Now I'm feeling sentimental
I'm destroying lives
Yeah what I do is detrimental
Dope you up at night
This ain't no blow bitch
This is fentanyl
Overdose
But what I do to you
Ain't accidental
Yeah I'm a real sick guy
I used to do just like the rest
Now I'm a one of a kind
Nasty
Attach your spleen to your thigh
Someone should tell your parents
This a corpse they don't wanna find
Uh

Momma used to call daddy
Whenevers I would lash out
He would rush from work
To find me standing with an axe out
Medication mixed fascination
Causes black outs
I hid behind it all
So when I did I'd bring the mask out
Now I'm just numb to it all
I laugh and smile at you
While I nail your thumb to my wall
Sicko
Winter time
My heart ice
But neck my sickles
Please don't poke me with the knife
Baby no that tickles
Light a fire on your crotch
Call you Rachel Nichols
Pop rocks in the pot
Then watch my money triple
I'm feeling festive
Off your toes
With this fucking missle
I keep the rock inside my hand
Like I just love to dribble
Drizzle
Blood drizzle down your fucking nipples
Middle man the way I'm touching
Every rock that sizzles
Fuck the bitch
And then I don't even call
Take your girl out on a shopping spree
Then shoot up the mall

Snort a couple lines
Now I'm feeling sentimental
I'm destroying lives

Yeah what I do is detrimental
Dope you up at night
This ain't no blow bitch
This is fentanyl
Overdose
But what I do to you
Ain't accidental
Yeah I'm a real sick guy
I used to do just like the rest
Now I'm a one of a kind
Nasty
Attach your spleen to your thigh
Someone should tell your parents
This a corpse they don't wanna find
Uh

Back to the basics
Out here raging
With this new contagion
I'm feeling anxious
Better run before I start spraying
Aging like wine
My competition out here looking tasteless
I give her dick
When she feel sick
That pussy so contagious
Sicker than the bird flu
I am the late night reaper
And you rappers past curfew
Blood bathing in whirlpool
I'm a eat you lil bastards
Then I'll make sure that I hurl you
It ain't Christmas
But you're home alone
Cut off your phones
Turn off the lights
Before I start to roam
Around your house
I'm like a mouse
Until I skin your bones
Suddenly I'm just like a carnivore
Nom nom nom
Looking at my victims like
Yum yum yum
Got em all stuttering like
Um um um
A hunnid rounds
I'm so militant
I'm lil drummer boy pussy
It go bom bom bom

Snort a couple lines
Now I'm feeling sentimental
I'm destroying lives
Yeah what I do is detrimental
Dope you up at night
This ain't no blow bitch
This is fentanyl
Overdose
But what I do to you
