

Love Me Or Die

sKitz Kraven

She loves my soul
She loves it not
She hates to lie
But she lies a lot
She thinks she knows me
But I changed the plot
My brain is shot
Rope around your neck
Let's tie the knot
I said I love you
You ain't say it back
Bitch you tongue tied
You better say it quick
You fucking slut
I'll make you flatline
I'll take this car we're in
And drive it fast
Right off the beltline
You keep on saying
Babe my heart is racing
You ain't felt mine
You say I'm fucking crazy
Haha
You ain't seen nothing yet
If I can't have you
Then no one can
So shit let's both be dead
Shit we'll both be red
Dropped in blood
Who gon die quicker
You tell me that I'm sick
But I'm about to get sicker

There's a place where the evil goes
That don't follow the rules I have
If you decide to disobey
I will rip out your heart in half
I know there's a horrid place
That you can lay in
And I know you'll think of me
Everyday in every way
So
Bleed my love or bleed the fuck out
Don't leave me swimming in doubt
So you can you love me
You can love me or die

Do you love me
Do you really fucking love me
If you knew bout all the thoughts I had
Would really wanna touch me
Yeah okay sure
While you're pleading for your life
We could been forever bitch
You could of been my fucking wife
But you had to go and cheat
Just had to lead my ass on

You say it's only been two months
So it's my fault I latched on
You know I'm crazy now
But claim you never thought I'd be this nuts
Jokes on you
Before we met
I went and watched your ass for months
Yeah cats out of the bag baby
Look who brought a gun
Should I put it to my head or yours
You choose who gets the fun
You brought me to my fucking breaking point
Congratulations hun
I'm obsessed
I'm in to deep
You should of never tried to run

There's a place where the evil goes
That don't follow the rules I have
If you decide to disobey
I will rip out your heart in half
I know there's a horrid place
That you can lay in
And I know you'll think of me
Everyday in every way
So
Bleed my love or bleed the fuck out
Don't leave me swimming in doubt
So you can you love me
You can love me or die
