sKitz Kraven

I'm starting this topic  
She say that I'm toxic  
I just wanna pop  
I just wanna snort it  
... she whoring  
She ain't gonna stop  
I empty my pockets  
Off anti psychotics  
I just need a drop  
I just need a tablet  
Grab 2 from the basket  
It's magic

Yeah

It's magic

It's magic

It's magic  
Ohhhh  
It's magic

Why these drugs keep testing me like

Why's this bitch sleeping next to me like

First I'm a pop that molly  
Then I'm a pop this bean  
Got codeine dreams  
Serving up these fiends  
But the only fiend is me  
Cuts all over my wrist  
Razor blades I grip  
But I I barely bleed  
Stimulants I need  
It's 10 past 3  
So I slowly creep

I approach the whore  
While I follow her  
Through the dark woods of Wisconsin  
Murders the option  
So we start violently boxing  
Shatter the skull of Ms Thompson

Escaping nonsense!

Pop a few more  
Drink a bit more  
Until my head hits the floor  
She enters my core  
Till my brain feelin sore  
So I pop another one

Thinking about murder  
Just wanna hurt her

Just left the berg  
To cop a new burner

We got a squirm  
So I just bring out the leash  
All out of drugs so I bring out the beast  
Sheeshhh!  
Not this again  
Kraven's depressed thinking this is the end  
In need of a friend  
But Molly's the one who's around  
She picks me back up  
Soon as I'm feeling down

I got cotton mouth  
I need to hydrate  
Her pussy's where  
I like to migrate  
My weed loud  
Make it vibrate  
I killed the game  
Fuck the crime rate

These pussy rappers don't want none  
You avoid beef well I want some  
Your bitch say I'm so handsome  
I'm throwing ones while she dancing

Damn son... where'd you find this?  
I got it from the trap house  
2 SUV's just to back out  
Kraven taking week long trips  
Bring the map out  
Wanna get to know me on a verse?  
Bring them stacks out

I ain't about giving out no hand outs  
Because I had to do this by my damn self  
Did it on my own  
That's exactly how it planned out  
Probably why it panned out

Haters talking shit shut your damn mouth  
The way I like to spit  
You would think I'm from the damn south  
But I'm from the Midwest  
35 below I can feel it in my chest  
Blow it out through my damn mouth

Ceremony shit get the candles lit  
Collecting bars on my mother fucking  
Mantle bridge  
She wanna do me right now  
On the magic stick  
But first she wanna get high  
Off my magic tricks
