

Still Breathing

sKitz Kraven

We all hear a little voice in our head
The only difference between mine is that is mine wants you dead
It tells me, go grab the hammer that's inside of the shed
And then walk back inside the house and hit your girl in the head

Don't you stop until you're covered in sweat
And don't you stop hitting her head until it covers the bed
Mmmmm tasty such a pretty sight that is
I'm glad she didn't scream 'cause I would hate for her to fright the kids

Fucking maggots I hate them with a passion
They ruined what we had it'd be a shame if something happened to 'em
I got no time 'cause I got bigger fish to fry
There's thirteen people left I promise none will have survived

You praying this a dream
But buddy you ain't dreaming
Addicted to the freaks
I got a kitchen full of demons
Take a seat Selena
I'ma feed you all my penis
I'ma knock your ass up
I hope you're hungry for some semen
Then once you're far along
I'll take a razor to the fetus
I'll carve your body open
Leave you on the floor bleeding
It's spooky every season
Taking lives for no reason
Treason
They tried to kill me off
I'm still breathing

Since a kid I've been having some thoughts momma
Like what if beat up the kid that likes to start drama
Or maybe I'll just tell my teacher that she's fucking hot
Or maybe I'll just lie and say my teacher's high off pot
Or maybe I'll just bring a gun to school and get her shot
And have the cops commit a murder just for me to stop
See I think differently when I'm at home all by myself
Yeah my head is fuckin' toxic but your head is on my shelf
Just for decoration I'll kill a cat just out of desperation
Collecting bodies in my basement call it vegetation
Mmmmm call me Mr. Kill Em Slowly
This ain't religion but I'll leave my victims very holey

You praying this a dream
But buddy you ain't dreaming
Addicted to the freaks
I got a kitchen full of demons
Take a seat Selena
I'm feed you all my penis
I'm a knock your ass up
I hope you're hungry for some semen
Then once you're far along
I'll take a razor to the fetus
I'll carve your body open

Leave you on the floor bleeding
It's spooky every season
Taking lives for no reason
Treason
They tried to kill me off
I'm still breathing
