

# **Trials & Mutilations**

**sKitz Kraven**

Darkness follows me  
Everywhere I go  
Everywhere I look  
I swear this shit stalking me  
They just wanna see me  
Kill all my enemies  
And I won't stop  
Until their all on their  
Hands and knees  
Laying in a pool of blood  
I'm too in love with murder  
Just the thought of blood  
Makes my endorphins  
Rush out further  
I'm craven love  
But when I get too close  
To feeling some  
I just run away with ones who feel it more  
And then I hurt her  
I want them dead  
It's all for me  
I'm taking lives for emptiness inside of thee  
I'm bout to start a killing spree  
Is it a school  
Is it just me  
Not suicidal but it creeps  
Somebody stop this right now  
I pray to God come help me please

I ain't got no time  
For no time off  
Cause when I do  
The silence keep attacking me  
My mental health is dead  
I'm bout to sign off  
Somebody call the cops  
To get ahold of me  
Cause if they don't  
A lot of people gonna be dead  
Yeah there ain't no controlling me  
I'm dead inside  
And it's scaring me  
This thing inside me  
It's just barely me  
Lately  
It's just do or die  
Everything  
Is now my newest lie  
Don't tempt me  
Cause if you do  
You'll die  
Yeah  
I'm suffocating can't breathe

I'm lost behind a reputation  
That makes me a model with a role  
For the people hurting mentally

That don't know where to go  
But what good can I just do  
When my own thoughts  
Are worse than theirs  
More disturbed and more sadistic  
Than whatever they've been through  
Fuck being an example  
Fuck yourself and fuck your life  
Chop you up into tiny pieces  
Feed those pieces to your wife  
Yeah I never liked a gun  
There's way more power with a knife  
Sike  
Ice pick more fun  
When in Wisconsin through the night  
You ugly fuck  
You think it's fun and games  
Think just cause I'm rich  
That I'm not dealing with the pain  
With the agony and flames  
Shoot liquid drugs inside my veins  
I keep on smelling memories  
From all the victims that remain  
Murder was the only option  
I'm poppin pills  
Cause I'm toxic  
Gossiping with all the monsters  
That's living inside my closet  
Murder was the only option  
When I thought I was alone  
Twenty voices on the phone  
I'm hearing people who ain't home  
Psycho trials

I ain't got no time  
For no time off  
Cause when I do  
The silence keep attacking me  
My mental health is dead  
I'm bout to sign off  
Somebody call the cops  
To get ahold of me  
Cause if they don't  
A lot of people gonna be dead  
Yeah there ain't no controlling me  
I'm dead inside  
And it's scaring me  
This thing inside me  
It's just barely me  
Lately  
It's just do or die  
Everything  
Is now my newest lie  
Don't tempt me  
Cause if you do  
You'll die  
Yeah  
I'm suffocating can't breathe  
Somebody help me
