And if I hurt your feelings then it's my bad
Smoke a little inspiration take a seat on my lap
Ascended til we climax
Lets just let the time pass
Charge your drink to my tab
And tell lil mama she can spend the night
I'm just tryna live the life
Hope and pray we get it right
Reflect our stories endearing
Get that nostalgic feeling
Our glass is to the ceiling

And if I hurt your feelings thats not my intention
But this shit here was my decision
And if my recollection is serving me right
I don't take many chances
So lets toast to this
Yeah toast to that
We so gone ain't coming back
We here
It's our year
Cheers to that
Lets toast to this
Yeah toast to that
We so gone ain't coming back
We here
It's our year
Cheers to that

I be impatient till I make it
Til my name in conversation
With the greats or I'm the greatest
Champagne and sparklers
It's a special occasion
I feel to love the lust
Man that shit is contagious
Screw these damn haters
Suck a burnt paper
We go in to check the mail
And we waving hi to the neighbors
She rocking all that Chanel
Waving I see you later
But I don't mean no harm
So I'm screaming baby wait up

And if I hurt your feelings my apologies
Alot of things on my mind
Tryna stay on my grind
Oh, I
Gotta go, I don't know when I'll be home
So heres a toast
So heres a toast
