Demons

Skizzy Mars

Ya dig
Yeah
Just let me know
Yeah
Before you go
Yeah, yeah yeah
Wait

Here we are, you know your body's like a work of art
Just give me a warning fore you break my heart
I know you got your demons and I'm ready to see them
Wait
It's been a while, I wish I could promise I won't run around
You make a nigga wanna settle down
You know I got my demons and you ready to see them

Yeah
You got problems, I got problems too
Uh, but you the one, I wanna ride with you, ayy
'Cause when I'm down, you know you pick me up, ayy
You know I love it when you lick me up, ayy
Drippin' up, ayy
Two of us, ayy
They can't stop, ayy
On the road, ayy
On and on, yeah, yeah
Just tryna right my wrongs

Why you gotta talk like that?
Why you say that we won't last?
You say that we're moving fast
Tell me why is that so bad?

Ayy, wait
Here we are, you know your body's like a work of art
Just give me a warning fore you break my heart
I know you got your demons and I'm ready to see them
Wait
It's been a while, I wish I could promise I won't run around
You make a nigga wanna settle down
You know I got my demons and you ready to see them

Let me know, fore you go
Let me know, fore you go

A lot of girls in here but I got tunnel vision, ya
They tryna talk to the kid but I won't listen, ya
Cause you different, ya
See the vision, ya
For you I might just switch it up. you got me thinking, ya
You got me praying and counting my blessings
All you do is blow a kiss but I'm getting the message
You got baggage, I got baggage too (baggage too)
My past is extra reckless but I learned my lesson

Why you gotta talk like that?
Why you say that we won't last?

You say that we're moving fast
Tell me why is that so bad?

Ayy, wait
Here we are, you know your body's like a work of art
Just give me a warning fore you break my heart
I know you got your demons and I'm ready to see them
Wait
It's been a while, I wish I could promise I won't run around
You make a nigga wanna settle down
You know I got my demons and you ready to see them

Let me know, fore you go
Let me know, fore you go
