Detached

Skizzy Mars

I pop a blue when I'm feeling blue
That shit was old - I need something new
Concentrates keep me concentrated
Sedatives got me so sedated
I'm so
I'm so
I'm so detached
And I'm so
I'm so
I'm so detached
And I'm so
I'm so
I'm so detached
I'm so attached
I'm so attached

Young skiz good with faces
But I'm bad with names
Sent that girl off on an Uber I'm like, "glad you came"
Hotboxing out the whip we almost crashed the range
Pretty girls from ATL after the masquerade
Left the past in the rear now I'm new and improved
Breaking old habits in high fashion
It's crazy how a thought can lead you to a time and place
I used to cop a gram and take it to the face
Shoutout Anne we used to fuck and do blow
I fell in love with Juliet she used to work on the pole
Drugs make the sane insane
I'm attracted to crazy
The chaos don't phase me
So stuck in my ways

I pop a blue when I'm feeling blue
That shit was old - I need something new
Concentrates keep me concentrated
Sedatives got me so sedated
I'm so
I'm so
I'm so detached
And I'm so
I'm so
I'm so detached
And I'm so
I'm so
I'm so detached
I'm so attached
I'm so attached

Make mistakes too much
It's tragic the way we live
Crazy we alive
It's savage the shit we did
Praying all the time but never truly repent
Next morning I'm bent
Last night was a mess
Insecure shorty
She can't take a compliment

My new girl is a model, aspiring actress
I was off the shits black label, percocets
She say we had sex but honestly I forget
Doing lines in the VIP
David Yurman on my wrist
She don't even like rap
But she love to play my shit
Yea
Asking me to sign her tits
Stressed about the time
Girl relax we on the list

I pop a blue when I'm feeling blue
That shit was old - I need something new
Concentrates keep me concentrated
Sedatives got me so sedated
I'm so
I'm so
I'm so detached
And I'm so
I'm so
I'm so detached
And I'm so
I'm so
I'm so detached
I'm so attached
I'm so attached

Everything on the table like the outfit night before
This the third time that I fell in love on tour
This the 1st time that you asked the spend the night
Fucked me so good that I almost missed my flight
Wanted to be honest but I never got the chance
We had potential but we never had a plan
I know you not my type, I know you'll fuck up my life
I just do it out of spite
I never take advice

I pop a blue when I'm feeling blue
That shit was old - I need something new
Concentrates keep me concentrated
Sedatives got me so sedated
I'm so
I'm so
I'm so detached
And I'm so
I'm so
I'm so detached
And I'm so
I'm so
I'm so detached
I'm so detached
I'm so detached
I'm so attached
I'm so detached
So detached
So detached
I'm so attached
