

Leave Me

Skizzy Mars

Think I lost my mind when I first met you
After what we did it's hard to forget you
Fallen for you way too easy
How'd you turn around leave me?

Think I lost my mind when I first met you
After what we did it's hard to forget you
Fallen for you way too easy
How'd you turn around leave me?

Your hair blowin' in the, wind
I looked at you I said she bad I wanna know who that is
Now you the one that got away and I'm a story you tell your friends
Half-life of love is forever, it never ends
And I'm still filled with pain
This love shit was insane
No more games, yeah we used to tear the city up
If you wanna talk about it we can clear it up
I got issues well look in the mirror love

Hey girl, what's poppin'
I'm drunk
I'm fallin'
My mind
I lost it
I'm all out of options

Think I lost my mind when I first met you
After what we did it's hard to forget you
Fallen for you way too easy
How'd you turn around leave me?

Think I lost my mind when I first met you
After what we did it's hard to forget you
Fallen for you way too easy
How'd you turn around leave me?

Feel like I got slit with a four-finger ring
Everything that's shinin' always was the scene
We went from storybook to tragedy
Have to get you back don't be mad at me
Have to getcha getcha getcha it's a [?]
Then I kick you to the curb that's a motherfuckin' [?]
Everybody think I'm a really nice guy
But you broke a cold heart, bitch I hope your man die

Hey girl, what's poppin'
I'm drunk
I'm fallin'
My mind
I lost it
I'm all out of options

Think I lost my mind when I first met you
After what we did it's hard to forget you
Fallen for you way too easy
How'd you turn around leave me?

Think I lost my mind when I first met you
After what we did it's hard to forget you
Fallen for you way too easy
How'd you turn around leave me?

Fallen for you way too easy (fallen fallen)
Fallen for you way too easy (fallen fallen)
Then you turn around and leave me (then you leave me)
Then you turn around and leave me
Fallen for you way too easy (fallen fallen)
Fallen for you way too easy (fallen fallen)
Then you turn around and leave me (then you leave me)
Then you turn around and leave me
