

Run It Up

Skizzy Mars

If I had to run it right now, would you run it up with me?
If I had to run it back, tell me would run it back with me?
If I had to blow it all, would you blow it all with me?
If I had to run it right now, would you run it back with me?

If I had to run it up
Would you be the one or would you be a runner up?
Would you tell them lies on me babe?
Or would you just ride for me babe?
Kind of dirt you got on me babe?
Won't you keep that silent for me babe?
Keep that quiet for me babe?
Don't need that gettin' out on me babe

If I had to run it right now, would you run it up with me?
If I had to run it back, tell me would run it back with me?
If I had to blow it all, would you blow it all with me?
If I had to run it right now, would you run it back with me?

Windows up, high off love, we ain't need no drugs
You in my cup, give it up and you bad as fuck
If I took a while to answer, I was prolly thinkin' crazy
Said some stupid shit? Then I was prolly drinkin' baby
I'm tryna get you out your element
You vivacious and elegant, I'm tryna experiment
I'm young, handsome, intelligent
All them other girls irrelevant

If I had to run it right now, would you run it up with me?
If I had to run it back, tell me would run it back with me?
If I had to blow it all, would you blow it all with me?
If I had to run it right now, would you run it back with me?

If I had to run it up, would you keep it a hundred oh
Would you go ahead, run it up?
Run it, run it r-r-run it up
If I had to run it up, would you keep it a hundred oh
Would you go ahead, run it up?
Run it, run it r-r-run it up
