

# STROBE LIGHTS

Skizzy Mars

We remind you that this is a non-smoking flight

Oh God, I want you to stay in for the  
Whole night, why'd you take them in, coughing them  
Strobe lights, mix it with a liquid  
I remember being timid, now you kissing on my lips until the  
Sunrise, I want you to stay in for the  
Whole night, why'd you take them in, coughing them  
Strobe lights, mix it with a liquid  
I remember being timid, now you kissing on my lips until the

Sunrise, all night  
White girls'll get so hot and take pics  
Cigarettes, weed, and low vibes and latex  
Met a girl after show rocking fake tits  
So I took her to the Holiday, I'm on the seventh floor, ay  
Every night's a holiday and she wanna do blow, ay  
Meaning that she popped a lot but I don't wanna know  
Light flickering on and off and it feel like a stroke, ay, yeah

We sipping Prosecco till the city starts to echo  
But just for one night I can make you feel presidential  
Lights flickering on and off, I watch you come closer  
Then I feel your hands press against my shoulders, yeah

Oh God, I want you to stay in for the  
Whole night, why'd you take them in, coughing them  
Strobe lights, mix it with a liquid  
I remember being timid, now you kissing on my lips until the  
Sunrise, I want you to stay in for the (yeah)  
Whole night, why'd you take them in (yeah), coughing them  
Strobe lights (kissing on my lips until the), mix it with a liquid (yeah)  
I remember being timid (yeah), now you kissing on my lips until the (ay)

Kissing on my lips until the sunrise  
Feelings change, we always recall the fun times  
My ex called me up and said that I'm a low life  
When I really think about it, man she so right  
I paid the check, I told 'em keep the change  
She said she only do the drugs because it ease the pain  
I'll probably make a hundred million and I'll leave the game  
The crazy thing is after years apart I feel the same  
But in this city, we got older and we separated  
See you tonight, I wanna make up for the time we wasted  
Strobe lights flicker, your eyes illuminated  
I been patient, I been waiting for you, ay

Oh God (ay), I want you to stay in  
For the whole night (the whole night), why'd you take them in, coughing them  
Strobe lights (them strobe lights, yeah), mix it with a liquid  
I remember being timid, now you kissing on my lips until the  
Sunrise (sunrise), I want you to stay in  
For the whole night (the whole night), why'd you take them in, coughing them  
Strobe lights (them strobe lights), mix it with a liquid  
I remember being timid, now you kissing on my lips until the
