

Take It Back

Skizzy Mars

Say you wanna move on, you gon' take that shit back, you gon' take it all back
Made a check, blew it all, I'ma make that shit back, I'ma make it all back
Say you wanna do some new things to improve things, you confusing
Say you wanna move on, you gon' take that shit back, you gon' take it all back

I just spent a thousand on some new jeans
Just to hold a thousand in these Ksubis
Wav told me I put too much work in to be average
Please don't make me do anything drastic
Yeah, you tend to turn me to a savage
Know we go together, why you actin?
Take you home and then you do gymnastics
Then we make some magic like Aladdin
Movie, we could make a classic

Say you wanna move on, you gon' take that shit back, you gon' take it all back
Made a check, blew it all, I'ma make that shit back, I'ma make it all back
Say you wanna do some new things to improve things, you confusing
Say you wanna move on, you gon' take that shit back, you gon' take it all back

You confess, you unimpressed
I know you want the best, won't settle for nothing less
Know I had a plan, five lies, I flunked the test
Every time I lie or I cheat you second guess
And that's understandable, I don't think rational
The feeling is mutual, the tension is tangible
Let's hit Rodeo, let's blow a big bag then lay low
I know you still mad but you can't go

Say you wanna move on, you gon' take that shit back, you gon' take it all back
Made a check, blew it all, I'ma make that shit back, I'ma make it all back
Say you wanna do some new things to improve things, you confusing
Say you wanna move on, you gon' take that shit back, you gon' take it all back
