

# Wake Up

Skizzy Mars

Wake up  
You got faded as fuck  
It's time to go over everything happening here  
And tomorrow, it feels like today  
Except it's not over  
And will you be spending it here when we get older?  
You got faded as fuck  
It's time to go over everything happening here  
And to-

Yeah, late nights, we downtown  
It's crazy how them uppers had us coming down  
You know that feeling when the night is too young to end  
You know that feeling when you're high as fuck with all your friends  
Yeah, you was hoping that it'd never end  
But it did, and when you wake up you gon' need a [?]  
I got a question: do you love me like I love you?  
It's like you've seen the world before 22  
No offense, you hit that party just to take some pics  
Cigarettes on [?], keep me in the loop  
What's good, let's talk about the shit we did last night  
You passed out, so I tap your shoulder like

Wake up  
You got faded as fuck  
It's time to go over everything happening here  
And tomorrow, it feels like today  
Except it's not over  
And will you be spending it here when we get older?  
You got faded as fuck  
It's time to go over everything happening here  
And to-

Yeah, take it slow, I never rush  
It's crazy how them downers had us feeling up  
You call a car, you never walk  
Just left the club, you drunk as fuck  
You want all the love, all the drugs  
And you always smoking all my bud  
What's good, let's talk about the shit that happened last night  
You feel asleep, so I tap your shoulder like

Wake up  
You got faded as fuck  
It's time to go over everything happening here  
And tomorrow, it feels like today  
Except it's not over  
And will you be spending it here when we get older?  
You got faded as fuck  
It's time to go over everything happening here  
And to-
