

Who Ruined Your Night

Skizzy Mars

Who ruined your night?
I don't wanna fight em, but I'll do it for you
The room is on fire
I think you might like me, you should try something new

You said you were looking for cabs
I think you were looking for love
An hour later we were opening tabs
An hour later we were ordering drugs
And then you told me every flaw you have
And I said flaws make us who we are
We smoke joints by the reservoir
And you look like a movie star
Cigarette breaks during the party
I don't really smoke but its better than talking
And you don't like LA, you say that it's boring
And every time you leave its like the east coast calling
Make up stains on my white tee
I think you like me
Couple more jokes, couple more laughs
Couple more smokes, couple more drags

Who ruined your night?
I don't wanna fight em, but I'll do it for you
The room is on fire
I think you might like me, you should try something new

You said you would rather have fun than try to be honest
Then I said that we better have the best night, if you're breaking a promise
And I always want what I can't have, do you feel for me?
You always get what you don't want, so what do you want from me?
?

Who ruined your night?
I don't wanna fight em, but I'll do it for you
The room is on fire
I think you might like me, you should try something new
