

Chasing Demons

Skold

So this is the only attempt you get
This is your moment
This is the time to place your bet
This is your chance

I'm not chasing demons
The demons chasing me
I might not know tomorrow but tomorrow will know me
So that's what you get for nothing
You'll be the king of thieves
I'm not chasing demons
The demons chasing me

I'm not chasing demons
The demons chasing me

So this is the chance that slips you by
This is that moment
This is the kind that says goodbye
If you let it go

I'm not chasing demons
The demons chasing me
I might not know tomorrow but tomorrow will know me
So that's what you get for nothing
You'll be the king of thieves
I'm not chasing demons
The demons chasing me

chasing demons
The demons chasing me

No fix no medication contain my pain away
But I'll become eternal on judgment day

I'm not chasing demons
The demons chasing me
I might not know tomorrow but tomorrow will know me
I'm not chasing demons
The demons chasing me
I might not know tomorrow but tomorrow will know me

No fix no medication contain my pain away
But I'll become eternal on judgment day
