

Small World

Skold

You must go to California, pack your bags and leave
The Dark Lord Satan waits there for you, he will set you free

Disneyland must burn
We'll set set the world on fire tonight my love
Disneyland must burn

Disneyland must burn

You think that you're a tough guy maybe you can't even see,
the left hand path will be there for you, start your trip and see

Disneyland must burn
We'll set set the world on fire tonight my love
