

# This Beat Will Kill Us All

Skold

I love a dirty little compromise  
But sooner or later it will cut you down to size  
So sign right up and get in line  
If there's no victim there can't be a crime

Shut up!  
Turn it down  
Hand it over - bang your head against the wall  
Shut it down!  
Let it go, run for cover - this is the curtain call  
This beat will kill us all  
This beat will kill us all

The contradiction takes it's told  
You won the lottery then fell into a hole  
So clear the way and make some room  
Destroy the illusion, pop the balloon

Shut up!  
Turn it down  
Hand it over - bang a head against the wall  
Shut it down!  
Let it go, run for cover - this is the curtain call  
This beat will kill us all  
This beat will kill us all  
This beat will kill us all  
This beat will kill us all

Everything is shiny, everything is new  
Every single wish you have will finally come true  
Everything that glitters will turn you into gold  
Just promise to sell your soul

Shut up!  
Turn it down  
Hand it over - bang a head against the wall  
Shut it down!  
Let it go, run for cover - this is the curtain call  
This beat will kill us all  
This beat will kill us all  
This beat will kill us all  
This beat will kill us all
