

Walked in, stand on my racks, hittin' my head  
Yeah, I see it, did my dirt, wash my hands  
Lately been talkin' in code, I don't even answer my door  
That bitch gon' sell her soul soon as you show her more  
She sucked out my soul and I blow my load  
The opps be up the road, they don't even know I know  
I'ma go get my dough, I'ma go there quote-unquote  
Nobody likes me, oh, I know, I know

I'ma go glow like Quay, I caught a glow, I go  
I'ma go spend me a dub inside the clothin' store  
I'ma go get me a hub from the club from a hoe I know  
My wrist, neck, and knuckles overglow  
Old flow, diamonds from toe to toe  
I was flawless on my own, we can go stone for stone  
Got more carrots than a bunny, this ain't Daffy deal  
I had all this shit before my rappin' deal  
And they know nigga got shows, nigga be trappin' still  
If a nigga ever kick in my door, I'ma have him vacuum sealed  
They thought I was gon' give this shit up last year  
I made more than six-figure this past year

Walked in, stand on my racks, hittin' my head  
Yeah, I see it, did my dirt, wash my hands  
Lately been talkin' in code, I don't even answer my door  
That bitch gon' sell her soul soon as you show her more  
She sucked out my soul and I blow my load  
The opps be up the road, they don't even know I know  
I'ma go get my dough, I'ma go there quote-unquote  
Nobody likes me, oh, I know, I know

All I see is dead people, I see dead people  
She ain't got no man neither, she's a man-eater  
Don't think I was ready for the world, it wasn't playin'  
Cut off all my friendships, you wouldn't understand  
It's only for the fam, I said, I said only for the fam  
My eyes bled, what I've seen, I will never share  
So I'm prepared, I've seen life turn into sham  
That's why I'm scared, I'm scared to go back there  
Bright as hell, pitch black, snow in here  
It's cold as hell, yeah  
Oh hell, I can't damn fail  
I'm a dog, yeah, check my paw and tail

Nigga walked in, stand on my racks, hittin' my head  
Yeah, I see it, did my dirt, wash my hands  
Lately been talkin' in code, I don't even answer my door  
That bitch gon' sell her soul soon as you show her more
