

# Turn It Down

Skooly

Gotti, ah  
They gon' hear you, oh  
They gon' hear you

Girl you know you gotta turn it down  
Girl you know you gotta tone down  
Girl you know you gotta turn it down  
Girl you know you gotta turn it down  
They gon' hear you outside, they gon' hear you outside  
They gon' hear you outside, so girl you know you gotta turn it down  
Gotta turn down, you know you gotta turn down  
They gon', they gon' hear you outside

I heard you got a flight to catch, I'm tryna get involved  
Fuck the dresser and the counter, we using the wall  
Tick-tickle pussy pop 'til you give me what I want  
Fuck you with my thumb 'til you show me you can cum  
I hope you ain't a child, hope your mama let you come  
Let's go have some fun, let me show you how it's done  
Give me head while I roll up, fuck me while I smoke this blunt  
Fuck you like I'm young, show you why they call me Don  
I bought a Birkin bag just to show her I'm the one  
Ride her like pump, she even ask to see the gun, she  
Helped me move a ton, she ain't lifted weight once  
Like damn man, this bitch might be the one, uh  
Bitch about her money and you still make her scream  
Well that's the kind of bitch a nigga need on the team  
I been on my lean shit and she been off the scene  
What the fuck you mean? shawty is a dream, goddamn

Girl you know you gotta turn it down  
Girl you know you gotta tone down  
Girl you know you gotta turn it down  
Girl you know you gotta turn it down  
They gon' hear you outside, they gon' hear you outside  
They gon' hear you outside, so girl you know you gotta turn it down  
Gotta turn down, you know you gotta turn down  
They gon', they gon' hear you outside

My ex bitch tryna sabotage me  
But I'm smart, Dexter's Laboratory  
This is not a story  
I am telling you what I been going through, I think  
If we gon' play, I'ma have to put another pillow on your face  
I don't know if you be tryna ride that wave  
But you gotta keep it down 'cause my partner's in the other room  
Ah, cry now  
Don't, don't, cry now  
Ooh, try now  
Try to keep it down, try to keep it down  
Try to keep it down, they gon' hear you outside  
They gon', they gon' hear you outside

Girl you know you gotta turn it down  
Girl you know you gotta tone down  
Girl you know you gotta turn it down  
Girl you know you gotta turn it down

They gon' hear you outside, they gon' hear you outside  
They gon' hear you outside, so girl you know you gotta turn it down  
Gotta turn down, you know you gotta turn down  
They gon', they gon' hear you outside
