

Evergreen

Skott

Won't you tell me again
'Bout that feeling
Can't believe that you're here
Am I dreaming?

I shine my light on you
I love you, I love you
Know you feel it too, my

We've been lost, we've been cold
But together
When it's dark and we're soaked
Blame the weather

I'll shine my light on you
I love you, I love you
I've just got to tell you

It's almost like the deep cuts make us beautiful
'Cause every time we love, we're carving capitals
Write our names on a tree
It's almost like the deep cuts make us colorful
Just tell me that my name is irreplaceable
And our love will be evergreen

Take me on, heavy heart's
Not a bad thing
Give it all, crash or fall
I will cherish it

I shine my light on you
I love you, I love you
Know you feel it too, why

Why go running in the dark?
Now I know that you see me
Why go running in the dark?
And you will come and find me

I shine my light on you
I love you, I love you
I just got to tell you

It's almost like the deep cuts make us beautiful
'Cause every time we love, we're carving capitals
Write our names on a tree
It's almost like the deep cuts make us colorful
Just tell me that my name is irreplaceable
And our love will be evergreen

Write our names on a tree
And our love will be evergreen
Write our names on a tree
And our love will be evergreen

Write our names on a tree
And our love will be evergreen

It's almost like the deep cuts make us beautiful
'Cause every time we love, we're carving capitals
Write our names on a tree
It's almost like the deep cuts make us colorful
Just tell me that my name is irreplaceable
And our love will be evergreen

Write our names on a tree
And our love will be evergreen
Write our names on a tree
And our love will be evergreen
