

Memory Shore

Skott

Slow down now
We've got time

I will be there in the midst of the night
I will find you at the darkest hour
I'll take you over the waves
To somewhere where memories shine

Come and find me at the dawn of it all
Light a fire where the winter's cold
And we'll go over the waves
To summer at memory shore

Slow down now
We've got time
Sunlit skies and miles of endless fields

Rippled waters
Troubled tides
'Cause sometimes
We need to close our eyes to see
I hope it's me

I will be there in the midst of the night
I will find you at the darkest hour
I'll take you over the waves
To somewhere where memories shine

Come and find me at the dawn of it all
Light a fire where the winter's cold
And we'll go over the waves
To summer at memory shore

Slow down now
We've got time

Go on now
It goes on
Raindrops fall
From somewhere much higher than us

Hit the ground then carry on
Rivers flow to somewhere
Where something's about to grow
I hope you know

I will be there in the midst of the night
I will find you at the darkest hour
I'll take you over the waves
To somewhere where memories shine

Come and find me at the dawn of it all
Light a fire where the winter's cold
And we'll go over the waves
To summer at memory shore

Slow down now

We've got time
