

# Mermaid

Skott

I'll be your mermaid, caught on your rock  
Coming for your aid, isn't it odd?  
Isn't it silly, now that you know?  
Someone this slippery, can't let you go

It's true, you know that I would jump too  
You know that I would jump too  
Ooh, into the blue

You should have left me, cut off the rope  
I'm too much sugar, I am your dope  
I'm just as scared as you, alone in the rain  
I'll jump if you jump too

Believe me, it is true  
You know that I would jump too  
You know that I would jump too  
Ooh, into the blue, into the blue  
It's proof, 'cause we got nothing to lose  
And there ain't nothing to prove  
You know I'd jump with you

Like the oceans dancing with a storm, I will dance with you  
While my waves enclose you 'til you're warm, like the water's glow  
Hold your breath and let me count to three, when you really know  
it's right  
Take my hand, we'll dive into the sea

It's true, you know that I would jump too  
You know that I would jump too  
Ooh, into the blue, into the blue  
It's proof, 'cause we got nothing to lose  
And there ain't nothing to prove  
You know I'd jump with you

I'll be your mermaid  
I'll be your mermaid  
I'll be your mermaid  
I'll be your mermaid
