

## New Day

Skott

Who are we to say  
Blue skies are made in heaven  
Here in the dark  
The world is changing  
And a new day's begun

When we rule the world  
When we rule the world

Come, come away with me  
Things will never ever be the same  
When we rule the world  
Come, come away with me  
Things will never ever be the same  
When we rule the world

When we rule the world  
When we rule the world
