

# Overcome

Skott

I'll overcome  
Silent songs I'll be humming on  
'Til you sing along  
Come as you are, ignited  
Some lights are a different kind  
Never burning out

Darkness and dust  
Quiet shadows are dancing now  
Asking for my hand  
I'm hanging on fine  
I'm trying to make sense of it all  
Trying to understand

Do you ever wonder what it's like  
Losing what you cannot be without  
I will keep running

I try  
I'll overcome

Fading stars echo  
Reminding us they know  
We've come too far to let go  
Don't let go
