

## Settle Down

Skott

Remember how we used to dream  
Imaginations offer quiet place for you and me  
I always saw it on a hill  
You used to add a lake  
And views with fields of daffodils

I think I've found it  
There's just nothing I would rather do  
Now that I've found it  
Would you let me settle down with you  
So let me settle down with you

Let's get a dog, let's prowl the shore  
A garden big enough to grow our own vegetables  
I think your fingers might be green  
Heartache's howling  
I will love you 'til I die

I think I've found it  
There's just nothing I would rather do  
Now that I've found it  
Would you let me settle down with you  
So let me settle down with you

Would you let me settle down with you  
So let me settle down with you  
You  
You
