

Silver Bridges

Skott

Sometimes I feel like everything's made up
My soul just wants to find a way to get out
Out of my chest

I know about a path in the mirror
Where the moon is pouring lead into a river
There's a silver bridge

When I was a child
I felt like I was one
Not pieces of someone I used to know
But I have fun
If I don't think too much about it

When we fall asleep and we don't wake up
I believe that love still holds a meaning
When the white wolf calls and it's time for us
Maybe we will find a new beginning
Silver bridges

The picture's never gonna be perfect
But I've got pretty visions of the mountains
Inside my head

I wish that I could show you it's working
Make it beautiful even if it's worthless
It's what I do best

When we were young
I felt like I was one
Not pieces of someone I used to know
But we have fun
If I don't think too much about it

When we fall asleep and we don't wake up
I believe that love still holds a meaning
When the moonlight falls and it's time to cross
Maybe we will find a new beginning
Silver bridges

Maybe we will find a new beginning

When the white wolf calls and it's time to cross
Maybe we will find a new beginning
Silver bridges

Maybe we will find our new beginning
Maybe we will find our new beginning
