Tired

Skott

I'm tired
Tired of the same things
Tired of the scene
Tired of the machine
To tired to believe
Tired being tied to a dream going on repeat
And I'm tired of the shaming
Tired complaining
I'm tired
Tired of the routine
Still I got no energy to change how I feel

I've been doing this most of my life
Most of my time, always on my mind
Doing it for kicks and to stay alive
Get it right, 9 to 9
And everybody knows I got it
The passion and the ghost I got it
The need to make it more I got it
But you will never know and I'm sorry

Everybody wants to get even
So I keep one eye open while sleeping
This world was always eat or be eaten
I'm sleepless

I'm tired
Tired of the same things
Tired of the scene
Tired of the machine
To tired to believe
Tired being tied to a dream going on repeat
And I'm tired of the shaming
Tired complaining
I'm tired
Tired of the routine
Still I got no energy to change how I feel

I've been staying up most every night
Pushing life up a hill
And always when I think its on the rise
Sliding down, standing still
The vision and the flow I'm on it
The things you need the most I'm on it
I'm getting really close I promise
But you will never know and I'm sorry

Everybody wants to get even
So I keep one eye open while sleeping
This world was always eat or be eaten
I'm sleepless

I'm tired
Tired of the same things
Tired of the scene
Tired of the machine
To tired to believe

Tired being tied to a dream going on repeat
And I'm tired of the shaming
Tired complaining
I'm tired
Tired of the routine
Still I got no energy to change how I feel
Still I got no energy to change how I feel
Still I got no energy to change how I feel
Still I got no energy to change how I feel
Still I got no energy to change anything
