

Goodbye

Skrape

We say we know what we want so we do
Age of infusion we melt to the core

I tell you this time hey, goodbye
Four walls retracting, I cry
Goodbye

Body and soul I'm impressed we expose
Comfort yourself and ignore what you chose
Space out your bad dreams let this f**k you up

I tell you this time hey, goodbye
Four walls retracting, I cry
Goodbye

Son of a soul swingin' the meat scene
Given the goal breakin' the porn queen
Kickin' my hate black an white daydream
Over the bold givin' up the soul

I cry Goodbye
I cry Goodbye
Space out your bad dreams let this f**k you up
